MEMORANDUM

CERN LIBRARIES, GENEVA

CM-P00043971

To : Dr. P. ASTBURY, EP
From : G. Charpak
Subject : Status of the Channelling Experiment

I wish to inform you that all the phases of preparation of our experiment progress as expected and we will be ready to install our experiment at the end of July 1976.

Because of the change of the conditions of the pulse sharing from the PS we would like to transform the original 5 weeks request into 3 periods of the machine.
